

JOMWEB.MY

- Initiative lead by experience engineers in IT & Software industry.
- Focus on new and emerging technologies
- Knowledge sharing platform

KEY PEOPLE

- Iszuddin Ismail
CTO, Xentral Methods (UTM CS “99)
- Jasdy Syarman
Consultant, METEOR (UTM CS “99)
- Mior Muhammad Zaki
Lead Developer, Katsana GPS

JOHOR CHAPTER

WHAT WE HAVE DONE?

KPTM

MEETUP #1

MAGIC GREAT

WORKSHOP

WHAT ARE WE LOOKING
FROM ACADEMIA?

TALK

- Introductory - Career talk for first year.

Bring directly experience engineers and developers direct to student

- Intermediate - Preview & Technical Talk

Engage directly with experts and industry. Give recent updates and overview of industry directly to student.

Allow exchange of ideas between academia (lectures) and industry

WORKSHOP

- Open Source Tools - 2nd and 3rd year students

Ruby, Python, Go, node.js

Experience new and emerging tools in the industry

- Modern Methodology

Agile, Kanban, TDD

Practice theory using real world and industry standard tools

HACKATHON

- Tie to Final Year Project
- Allow industry to give input and validation right from the beginning of project
- Bring projects from industry into academia

THANK YOU
