- Initiative lead by experience engineers in IT & Software industry.

- Focus on new and emerging technologies

- Knowledge sharing platform

KEY PEOPLE

- ## Iszuddin Ismail
  CTO, Xentral Methods (UTM CS '01)

- ## Jasdy Syarman
  Consultant, METEOR (UTM CS '04)

- ## Mior Muhammad Zaki
  Lead Developer, Katsana GPS

JOHOR CHAPTER

- ## Salahuddin Hairai
  Freelancer & Trainer, Aplikasi Kreatif (UTM CS ''10)

- ## Ariff Azraai
  Developer, MentariWorks (UTM EE ''15, expected)

WHAT WE HAVE DONE?

CAREER TALK

KPTM Kuala Lumpur
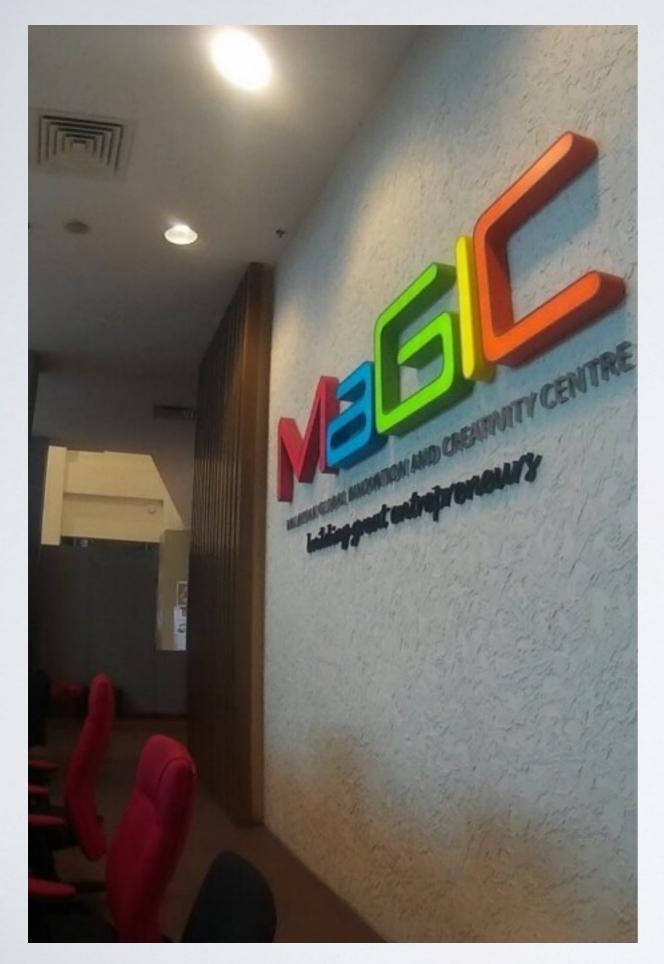

MEETUPS

TECHNICAL TALKS

WORKSHOP

WHAT ARE WE LOOKING FROM ACADEMIA?

TALK

- ## Introductory - Career talk for first year.

  Bring directly experience engineers and developers direct to student

- ## Intermediate - Preview & Technical Talk

  Engage directly with experts and industry. Give recent updates and overview of industry directly to student.

  Allow exchange of ideas between academia (lectures) and industry

WORKSHOP

- Open Source Tools - 2nd and 3rd year students

  Ruby, Python, Go, node.js, PHP

  Experience new and emerging tools in the industry

- Incorporate Modern Methodologies

  Version Control, Agile Development, Test Driven

  Practice theory using real world and industry standard tools

HACKATHON

- Tie to Final Year Project

- Allow industry to give input and validation right from the beginning of project

- Bring projects from industry into academia

THANK YOU
